- Net interest income was up 5.6% as compared to the first quarter of 2012:
 - Despite the 22 basis point decline in net interest margin for the first quarter of 2013 from the first quarter of 2012, margin compression was offset primarily by strong loan growth in 2012.
- Noninterest income was up 9.4% as compared to the first quarter of 2012:
 - Insurance and financial services revenue was up 12.0% over last year.
 - Trust revenue was up 36.8% over last year.

"Our successful merger and simultaneous systems conversion with Alliance were the result of a great collaborative effort by employees of both banks," said NBT President and CEO Martin Dietrich. "Team members came together and leveraged their collective expertise to plot a smooth transition for our customers. We're pleased to have the opportunity to deliver on Alliance's commitment to community banking in central New York through the addition of our new Alliance team members and branches in the same way that we deliver on this commitment across our five-state footprint. We're also proud to have completed another solid quarter with strong growth in noninterest income. Our commitment to customer service and banking fundamentals are the keys to our ongoing success in our efforts to continue to build long-term value for our shareholders."

Loan Quality and Provision for Loan Losses

The Company recorded a provision for loan losses of \$5.7 million for the three months ended March 31, 2013, compared with \$4.5 million for the three months ended March 31, 2012. Net charge-offs were \$6.3 million for the three months ended March 31, 2013, up from \$4.5 million for the same period in 2012, due primarily to the charge-off of one large commercial loan that was previously reserved for. Net charge-offs to average loans for the three months ended March 31, 2013 was 0.56%, compared to 0.47% for the three months ended March 31, 2012.

Nonperforming loans to total loans improved to 0.83% at March 31, 2013 as compared with 0.98% at December 31, 2012. Past due loans as a percentage of total loans was 0.81% at March 31, 2013, up from 0.71% at December 31, 2012.

The allowance for loan losses totaled \$68.7 million at March 31, 2013, compared to \$69.3 million at December 31, 2012. The allowance for loan losses as a percentage of loans was 1.32% (1.69% excluding acquired loans with no related allowance recorded) at March 31, 2013, compared to 1.62% (1.72% excluding acquired loans with no related allowance recorded) at December 31, 2012.

Net Interest Income

Net interest income was \$52.1 million for the three months ended March 31, 2013, compared with \$49.4 million for the three months ended March 31, 2012. The Company's FTE net interest margin was 3.68% for the three months ended March 31, 2013, down from 3.90% for the three months ended March 31, 2012. Average earning assets for the three months ended March 31, 2013 totaled \$5.8 billion, up \$648.8 million or 12.5%, from \$5.2 billion for the three months ended March 31, 2012. This growth in earning assets was due to strong organic loan growth in 2012 as well as the acquisition of Alliance in March 2013. The increase in average earning assets for the three months ended March 31, 2013 as compared to the same period of 2012 offset the decline in rates, resulting in the increase in net interest income over the same period last year.

While the rate paid on interest bearing liabilities decreased 17 basis points, the yield on interest earning assets declined 36 basis points, resulting in margin compression for the three months ended March 31, 2013, compared to the same period for 2012. The yield on securities available for sale was 2.09% for the three months ended March 31, 2013, as compared with 2.61% for the three months ended March 31, 2012. This decrease was due primarily to the reinvestment of cash flows from maturing securities into lower yielding securities in the current rate environment. The average balance of securities available for sale for the three months ended March 31, 2013 was \$1.2 billion, down slightly from the three months ended March 31, 2012. The yield on loans was 4.87% for the three months ended March 31, 2013, compared with 5.33% for the three months ended March 31, 2012. The

average balance of loans for the three months ended March 31, 2013 was \$4.5 billion, up approximately \$682.6 million, or 17.9%, from the three months ended March 31, 2012. This increase was due primarily to the aforementioned organic loan growth in 2012, as well as the acquisition of Alliance in March 2013. The reduction in yields on earning assets was partially offset by a reduction in rates paid on interest bearing liabilities. The rate on time deposits was 1.26% for the three months ended March 31, 2013, compared with 1.63% for the three months ended March 31, 2012. The rate on money market deposit accounts was 0.14% for the three months ended March 31, 2013, compared with 0.23% for the three months ended March 31, 2012.

Noninterest Income

Noninterest income for the three months ended March 31, 2013 was \$25.2 million, up 9.4% or \$2.1 million, compared with \$23.1 million for the same period in 2012. Insurance and other financial services revenue increased approximately \$0.7 million for the three months ended March 31, 2013, compared to the three months ended March 31, 2012, due primarily to an increase in insurance contingent revenue in 2013. Trust revenue increased approximately \$0.8 million for the first quarter of 2013 as compared to the same period in 2012. This increase was due primarily to trust business obtained from the Alliance acquisition. Securities gains totaled approximately \$1.1 million for the three months ended March 31, 2013 as compared to \$0.5 million for the same period in 2012. Retirement plan administration fees increased approximately \$0.3 million for the three months ended March 31, 2013, compared to the three months ended March 31, 2012, due primarily to the addition of two large clients during the third quarter of 2012.

Noninterest Expense and Income Tax Expense

Noninterest expense for the three months ended March 31, 2013 was \$60.7 million, up \$12.2 million or 25.2%, for the same period in 2012. Excluding merger expenses totaling \$10.7 million during the first quarter of 2013 and \$0.5 million during the first quarter of 2012, noninterest expense was up \$2.1 million, or 4.3%, for the first quarter of 2013 as compared to the first quarter of 2012. Occupancy expenses for the three months ended March 31, 2013 increased \$0.5 million, or 10.8%, over the same period in 2012 primarily due to 2012 acquisitions. In addition, other operating expenses increased \$0.5 million for the three months ended March 31, 2013 as compared to the same period in 2012. Income tax expense for the three month period ended March 31, 2013 was \$3.4 million, down from \$5.9 million for the same period in 2012. Loans were \$5.2 billion at March 31, 2013, up \$917.4 million from December 31, 2012, with the growth almost exclusively from the Alliance acquisition. Total deposits were \$6.0 billion at March 31, 2013, up \$1.2 billion from December 31, 2012 of which approximately \$1.1 billion was due to the Alliance acquisition.
